### DETAILED ACTION

Acknowledgment is made of the amendment received on 5/20/04. Claims 1-19 are currently pending.

#### *Allowable Subject Matter*

1. Claims 1-19 are allowed over prior art.
2. The following is a statement of reasons for the indication of allowable subject matter: the prior art of record, particularly the Zurfluh reference fails to teach, or suggest either alone or in combination thereof, imparting a bend to a second portion of the first optical fiber and a means for selectively and adjustably imparting a bend to a first portion of the third optical fiber when the third optical fiber is positioned in a first orientation relative to the first and second optical fibers. The examiner has found no motivation to combine prior art to create the claimed invention as indicated.

Also not found within the Zurfluh reference is an apparatus for selectively exchanging light energy between a plurality of optical fibers, comprising:

a second mechanism adapted to selectively and adjustably impart a bend to a first portion of the optical fiber, such that the light energy may be coupled substantially at the first portion of the first optical fiber.
